Summer Tutoring

Our Academic Muscles Program (AMP) is an individualized tutoring program that focuses on learning how to learn. While content-specific tutoring can be very helpful, often students can make greater improvements if they work on more general academic skills including those involving executive functioning, habit-building, effective studying, time management, as well as reading, writing, and math.

AMP “Root Camps” will meet Tuesdays in Canton and Wednesdays in Medfield from 4-5pm and will include the following:

July

- Build summer reading stamina with guided discussions, creative activities, and literary adventures to reignite your student's passion for books, whether they're already avid readers or need a little extra encouragement.
- Complete half of summer reading assignments.

August

- Stay (square)rooted in fundamental math concepts to avoid the summer “weeds!”
- Revisit motivational vision boards and plan action steps and commitments for personal and academic goals for the new school year.
- “Rise and Shine” Grade-Level Orientation to prepare for the 2024-2025 school year.

**AMP Summer
Discounted Cost:
\$319 for all of July
and August**

*Always rooting for you,
Team Wildewood*
