AVOID THE SUMMER SLIDE

Did you know?

- On average, students lose about one month of learning over the summer break
- Students tend to lose more in math than in reading, with an average setback of two months of grade-level equivalency in mathematical computation skills.

PREVENTING THE SLIDE:

 Reading: Achieve your summer reading goals while building comprehension and critical-thinking skills.

 Writing & Vocabulary: Master 50 new words to improve language and writing skills.

+ Math: Review 20 grade-level math questions and 5 bonus enrichment math questions each session to boost skills and confidence.

Flexible Scheduling!
Monday through Thursday

10am-4pm

Norwood and Medfield locations

\$600

June, July and August
