

SUMMER *Learning*

**For Rising 3rd,
4th, & 5th
Graders**

Reading, Writing, and Math

When **July 1 - August 21**
Mondays & Wednesdays
5:00-5:45 pm

Where **Medfield Learning
Center, 93 West Street
Medfield**

Let's enjoy reading a great book together. During Book Club meetings, students will engage in meaningful discussions focused on developing vocabulary and comprehension skills. Students will be expected to complete some independent reading prior to each session.

The Wild Robot by Peter Brown

When robot Roz opens her eyes for the first time, she discovers that she is alone on a remote, wild island. Why is she there? Where did she come from? And, most important, how will she survive in her harsh surroundings?

James and the Giant Peach by Roald Dahl

You will never forget resourceful little James and his new family of magically overgrown insects. Their adventures aboard a luscious peach as large as a house take them across the Atlantic Ocean, through waters infested with peach-eating sharks and skies inhabited by malevolent Cloudmen, to a ticker-tape parade in New York City.

We will also focus on developing strength and confidence in math. The goal is for students to develop a positive mindset about math while keeping their skills sharp. In each session, students will participate in math games and problem solving activities specifically designed to increase fact fluency, estimation skills, and problem solving.

\$599 for access to all 16 meetings!
(Vacation time expected and welcomed.)
